Manufacturers and Suppliers**

British Built Machinery, Made to Last

Why Oxdale Products?

**OXDALE
PRODUCTS**

Since 2008 Oxdale Products, have designed, manufactured and distributed a large range of forestry, farmland and agricultural equipment using as many British steel and British components as possible. Oxdale has a factory in Chesterfield which has a laser, fabrication, powder coat and assembly facilities. Oxdale are the main UK importer for Del Morino flails and tractor machinery.

Oxdale has a huge distribution network with stockists all over the UK.

Our dealers can be found on our websites dealer page or you can ring our office and one of Oxdale's helpful team members will assist you in finding your local dealer.

Money Back Guarantee

All our products come with a 12 month money back guarantee.

Dealer Network

We have a huge dealer network covering the UK.

Delivered Nationwide

We offer competitive pricing and fast delivery across the UK and Europe.

Quality Sales Advice

Oxdale has a team of supportive and experienced sales experts ready to help you choose the machine which suits you best.

Machinery Sales

Since 2008, Oxdale has shipped out over 30,000 products, included in that, are over 15,000 British built log splitters.

Spare Parts

We have an extensive range of spares for Oxdale and Del Morino machines.

- 5 Log Splitters
- 16 Chippers
- 20 Saw Benches
- 21 Log Crane and Grabs
- 22 Trailers
- 24 Rollers
- 27 Chain Harrows
- 28 Weeder
- 30 Post Hole Borer
- 31 Post Knocker
- 32 Graders
- 35 Slitter
- 36 Spring Tine
- 37 Subsoiler
- 38 Log cleaner / Trommel
- 39 Turf Groomer
- 40 Heaters
- 41 Forklift Brush & Towbars
- 42 Working Platform
- 43 Rotavators
- 46 Finishing Mowers
- 47 Flails
- 54 Topper
- 55 Res 10 Backhoes

Here at Oxdale Products, we make a variety of log splitters no matter your needs. Below are answers to some of the most common questions asked about our splitters.

Will your TM machine work on my tractor?

All our TM machines come with universal fittings on the hydraulic pipes. As long as your tractor has the hydraulic flow required, double acting spool and CAT1 or 2 linkage, our TM models will fit.

Can I have a 4-way splitting blade?

We only do the double chamfered axe head because the shape puts the machine's full pressure on a small surface area, allowing it to split logs easier.

What is a dual speed hydraulic pump?

The dual speed hydraulic pump is on all of our electric and petrol log splitters. The pump pushes oil around the machine, however, when the axe hits a very hard lump of wood, the dual speed hydraulic pump increases the pressure to cope with even the most demanding jobs.

Why doesn't your splitter have an auto return ram?

We don't put an auto return on our log splitters as we find it quicker without. You don't have to wait for the ram to go up before you split your next log. You can guess the height and leave the ram in place. Reducing the time it takes to split.

I want the biggest ram possible?

Doesn't everyone?! However this is not always the case, our biggest machines have big rams but they are for splitting logs into billets or for the professional user. They are too powerful for smaller size logs as well as the tractor having to be a lot more powerful.

Tractor Mounted Log Splitters

TM400 & TM400 Big Base

All companies have a machine which epitomises the success of the business, for Oxdale Products that machine is the TM400, with well over 11000 machines sold since 2008. The TM400 range of log splitters are suitable for most tractors. The splitter fits to a standard rear three-point linkage tractor and only requires a hydraulic power supply and a free flow return. Standard or Big Base available.

- Splits logs up to 18" or 45cm
- 10 Ton maximum capacity ram
- Minimum oil flow rate 14L per minute
- Double handle for added safety
- Unique double chamfered axe head
- 20hp minimum
- Anti burst sleeved pipes

Model	TM400	TM400 Big Base
Max Log Length	18" / 45cm	18" / 45cm
Ram Capacity	10 Ton	10 Ton
Min Oil Flow Rate	14 L/M	14L/M
Weight	54kg	80kg
Machine Height	1.32m	1.32m

The TM600 is a high-capacity log splitter powerful enough to cope with the most demanding of splitting jobs. The splitting wedge is specially forged, hardened and has a double chamfer to give the best splitting action available on the market. Splits logs up to 24" or 60cm

- Diameter not restricted
- 14 Ton maximum capacity ram
- 25L Per minute oil flow
- Unique double chamfered blade
- Safety double handle
- Anti burst sleeved pipes
- Fits cat 1 or 2 linkage

Model	TM600
Max Log Length	24" / 60cm
Ram Capacity	14 Ton
Min Oil Flow Rate	25 L/M
Weight	100kg
Machine Height	1.55m

The TM1000 log splitter has been designed for the professional user who splits logs into billets. This high-capacity splitter is for use with medium to large size tractors and can easily split logs up to a maximum height of 91cm / 36", with no diameter restrictions.

- Splits logs up to 36" or 91cm
- Diameter is not restricted
- 16 Ton maximum capacity ram
- 30L Per minute oil flow
- Unique double chamfered blade
- Safety double handle
- Anti burst sleeved pipes

Model	TM1000
Max Log Length	36" / 90cm
Ram Capacity	16 Ton
Min Oil Flow Rate	30 L/M
Weight	140kg
Machine Height	2.35m

PTO Log Splitters PTO400 & PTO400 Big Base

Our PTO range offers a self contained hydraulic system which is ideal for older or smaller tractors that have no free-flowing hydraulic system. Will fit most tractors where a PTO drive is available. Standard or Big Base models

- Maximum log length 18" or 45cm
- 10 Ton maximum capacity
- Cat 1 or 2 linkage
- PTO pump supplied
- Unique double chamfered axe head
- Anti burst sleeved pipes

Model	PTO400	PTO400 Big Base
Max Log Length	18"/45cm	18"/45cm
Ram Capacity	10 Ton	10 Ton
Minimum HP	10hp	10hp
Weight	69kg	85kg
Machine Height	1.12m	1.12m

PTO600

OXDALE
PRODUCTS

This PTO log splitter has been designed to split logs up to 24” in height. It is a self-contained hydraulic system which is ideal for older tractors that have no free-flowing hydraulic system. Suitable for 35hp tractors and above. Will fit to most tractors where a PTO drive is available. Simply connect to your tractor’s PTO and start splitting logs. A larger base allows for greater stability of large rings of wood.

- Maximum Log Length 24” or 60cm
- 14 Ton maximum capacity
- Cat 1 or 2 Linkage
- Unique double chamfered axe head
- Anti burst sleeved pipes

Model	PTO600
Max Log Length	24"/60cm
Ram Capacity	14 Ton
Minimum HP	35hp
Weight	210kg
Machine Height	1.55m

PTO1000

OXDALE
PRODUCTS

The PTO1000 is a log splitter suitable for tractors of 40hp and above. Perfect for professional users. The PTO1000 can take logs up to 91cm or 36" in length and any diameter. This is the ideal machine for splitting logs into billet lengths. 16 Ton maximum capacity

- Splits logs up to 36" or 91cm
- Cat 1 & 2 linkage
- Unique double chamfered axe head
- 45l hydraulic tank
- Anti burst sleeved pipes

Model	PTO1000
Max Log Length	36"/90cm
Ram Capacity	16 Ton
Minimum HP	40hp
Weight	255kg
Machine Height	2.35

Electric Log Splitters

E300

OXDALE
PRODUCTS

Oxdale Product's electric splitters are perfect for domestic or commercial users that do not have access to a tractor. The electric range features a single phase electric motor equipped with a standard household 3 pin plug. All our electric machines come with a dual speed hydraulic pump which gives you more power for when the splitting gets tough.

- 10 Ton maximum capacity
- Splits up to 12" or 30cm
- Three pin plug
- Indoor or outdoor use
- Unique double chamfered axe head
- Operates at waist height
- Easily manoeuvrable
- Anti burst sleeved pipes
- Dual speed hydraulic pump

Model	E300
Max Log Length	12" / 30cm
Ram Capacity	10 Ton
Motor	1.5kw
Weight	65kg
Machine Height	1.06m

E400

OXDALE
PRODUCTS

The E400 Electric log splitter is the perfect splitter for domestic and commercial use. The E400 can be used on the ground with the handles at waist height or mounted on a bench in a workshop. The E400 splits logs up to 18" or 45cm and plugs into a standard 3 pin socket. Can be used inside or out and is showerproof.

- 10 Ton ram
- Splits logs up to 18" or 45cm
- Dual speed hydraulic pump
- Standard 3 pin plug
- Double chamfered axe head
- Easily manoeuvrable
- Diameter not restricted
- Anti burst sleeved pipes

Model	E400
Max Log Length	18"/45cm
Ram Capacity	10 Ton
Motor	1.5kw
Weight	75kg
Machine Height	1.32m

The Oxdale E400D Log Splitter is the perfect machine if you live in a built up area and don't want to be too loud or would rather not have to mess about with a petrol engine. The E400D has the capability and reliability of the SE400 without the noise.

- Electric motor
- Dual speed hydraulic pump
- 10 tonne splitting force
- The E400D has been designed to plug into single phase electricity supply and can be used with extension leads
- The E400D can be used inside or outside and is shower proof.
- Splits logs up to 18"
- Diameter is not restricted
- Waist high splitting table
- Easily manoeuvrable

Model	E400D
Max Log Length	18"/45cm
Ram Capacity	10 Ton
Motor	1.5kw
Weight	100kg
Machine Height	2.01m

Petrol Log Splitters

SE400

OXDALE
PRODUCTS

The SE400 is an engine driven log splitter powered by a Honda GX200 engine fitted with a dual speed hydraulic pump. When combined with the unique axe-head it allows a 10 tonne capacity ram to be fitted which makes the splitting operation very quick. Capable of splitting logs up to 18 inch high and is not limited to the width of logs it can split

- Splits up to 18" or 45cm
- Diameter not restricted
- 6.5hp Honda GX200 Engine
- Easily manoeuvrable
- Waist high splitting table
- Double chamfered axe head
- Anti burst sleeved pipes
- Dual speed hydraulic pump

Model	SE400
Max Log Length	18" / 45cm
Ram Capacity	10 Ton
Engine	6.5hp Honda GX200
Weight	100kg
Machine Height	1.96m

Petrol Towable Log Splitter

RT400

OXDALE
PRODUCTS

The RT400 is a fully road legal towable log splitter. The RT400 is powered by a 6.5hp Honda GX200 engine which is teamed with the dual speed hydraulic pump, giving you an exceptionally strong 10 ton splitting force.

- The RT400 log splitter has been designed to be driven to the location where it is to be used. It can either be used attached to the tow vehicle or on the jockey wheel
- The splitting wedge is specially forged, hardened and is double chamfered to give the best splitting action available on the market
- For added safety, all the hydraulic pipes are covered in anti burst sleeving
- Diameter not restricted
- Fully IVA inspected and road legal up to 60mph
- Chassis plated and comes with fully legal lighting board and mudguards

Model	RT400
Max Log Length	18" / 45cm
Ram Capacity	10 Ton
Engine	6.5hp Honda GX200
Weight	175kg
Machine Height	1.9m

Petrol chipper 13hp 3" Chipper

OXDALE
PRODUCTS

Del Morino Petrol chippers are quality implements. Del Morino chippers are extremely durable and suitable for domestic and commercial applications. Perfect if you do not have a tractor and want a self powered machine.

- Quality high strength steel frame, anti-vibration, 5mm thickness laser cut, machine bent and welded by robot
- “v” belt transmission with tensioner
- Rotor: forced ventilation, steel bearing supports, highly resistant steel shaft
- 6 swinging reversible blades and 2 blades of highly resistant tempered steel with quick replacement system which is balanced electronically
- 2 adjustable counter blades, easily replaceable
- Self cleaning screen with longitudinal slots and quick removal system
- Pneumatic tires 330 mm diameter
- Supplied with 13hp Honda GX390 engine

PTO Chippers

3" PTO

OXDALE
PRODUCTS

Del Morino PTO chippers are high-quality tractor implements. Del Morino PTO chippers are extremely durable and suitable for domestic and commercial applications

- Quality steel frame, high strength, anti-vibration, 5mm thickness laser cut, machine bent and welded by robot, V belt transmission with tensioner.
- Rotor: forced ventilation, steel bearing supports, highly resistant steel shaft.
- High-quality steel frame for strength, with anti-vibration
- 5mm Frame thickness
- 6 swinging reversible blades and 2 steel blades
- 2 adjustable counter blades
- Quick replacement of blades
- Self-cleaning screen
- Pneumatic tyres
- PTO shaft included

4.5" Argo Chipper

OXDALE
PRODUCTS

A professional chipper/ shredder with gravity-feed and high-level discharge. Reliability and safety are key elements of this machine

- 2 belt transmission with screw tensioner
- 3-point hitch, category 4 PTO shaft
- 4 reversible chipping blades of high resistance steel mounted on a ventilated disc
- Quick access to the rotor for easy blades replacement
- Chipper disc has steel bearing supports and is electronically balanced
- Self-feed (gravity) hopper, chipping disc pulls branches in as it chips, max diameter 10mm (4 inch)
- Material discharge 1.5m (5 foot) high and 360° adjustable

5" Scorpion Chipper

OXDALE
PRODUCTS

The Scorpion 5" PTO driven professional chipper is one of many high-quality machines that Del Morino produce. Designed and built in Italy to the highest specification the scorpion is perfect if you have a large amount of wood to chip

- Features a no-stress system; automatically adjusts the speed of the feed rollers to deal with larger amounts of material and reduce the stress on the tractor
- Discharge chute stands 2m high and will rotate 360°
- Comes supplied with a CAT 4 PTO shaft
- Cuts with 4 reversible blades of high resistance steel, mounted on a ventilated disc. Easy access to blade holder for easy maintenance
- Blade holder disc has a rotor with steel bearing supports and is electronically balanced
- Reliability and safety are the key elements of this machine

The Oxdale PTO saw bench is perfect if you have a low to medium HP tractor . The PTO saw bench allows the user to cut logs up to 12" in diameter. The swinging cradle allows the cutting process to a be quick, safe and efficient.

- Cuts up to 12" diameter logs
- Swinging cradle
- PTO shaft included
- 3 point linkage allows easy transportation
- 700mm Tungsten tipped blade

Electric Version available which is the same as the PTO saw bench apart from it has:

- Cuts up to 10" diameter logs
- Swinging cradle
- 16 amp power supply
- 600mm Tungsten tipped blade

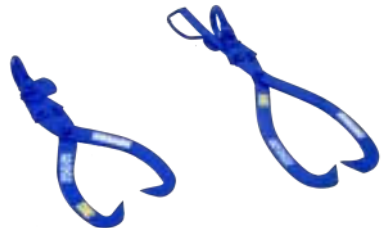

3-Point Linkage Crane

- Ideal for lifting and moving heavy items behind your tractor
- 1 tonne lifting capacity
- It has a reach of 1.8 meters when stationary (not tractor mounted)
- It has a lifting height of approximately 1.2m

Log Grabs

- Easier to manoeuvre
- 2 sizes available, 420mm or 600mm
- All log grabs are CE marked
- Work great with our 3 point linkage crane
- Log grabs and crane sold separately

Tipping Trailers

1.5 T & 2T Drop Side Trailer

OXDALE
PRODUCTS

The Oxdale 1.5T & 2T Tipping Trailer is perfect for moving a wide range of items. The trailer can be loaded up with loose material, logs, manure and soil. The hydraulic tipping function makes unloading easy. All of the sides can be either pivoted down or removed easily for flexible use as a flat bed loading trailer.

- 1.5 Ton tipping trailer for tractors 20hp+
- 2 Ton tipping trailer for tractors 25hp+
- Ideal for horse manure and soil
- Removable sides
- Available in a variety of colours

Model	1.5T	2.0T
Length	1.94m	2.29m
Width	1.28m	1.28m
Height	1.02m	1.02m
Load Capacity	1.5 Ton	2.0 Ton
Mesh Sides	Optional	Optional
Drop Sides	Yes	Yes

New for 2024, the Oxdale Tub Trailer, perfect for people who need a trailer without drop sides, and want a reliable, quality hydraulic tipping trailer. Excellent for moving horse muck, soil, general garden waste and much more. The removeable drawbar allows for easy shipping and storage while losing none of its strength.

- 1.5T Tub trailer for 15hp +
- Removeable drawbar
- Available in a variety of colours
- Hydraulic tipping
- 1.5T load capacity

The garden roller is a smaller, more manageable water ballasted roller. The roller can be towed behind a compact tractor or ATV, and has a diameter of 16", 30mm shaft and greaseable bearings which makes it ideal for smallholdings and gardens.

- Ideal for smallholdings and gardens
- Perfect for compact tractors and ATV's
- Easy to manoeuvre by hand when empty
- Comes with either pin or ball hitch
- Diameter of 16" or 40cm
- 5mm plate Steel drum

Model	4ft	5ft	6ft
Drum Diameter	16"	16"	16"
Wall Thickness	5mm	5mm	5mm
Empty Weight kg	120kg	144kg	185kg
Full Weight	278kg	341kg	422kg
Pin Hitch	Standard	Standard	Standard
Ball Hitch	Optional Extra	Optional Extra	Optional Extra

The paddock roller is water ballasted which makes it ideal for grassland work. The Oxdale land roller is fitted with a pin or 50mm standard ball hitch towing point and can be towed by tractor, ATV or 4x4.

- 20" Diameter
- 7mm Plate steel drum
- Pin or ball hitch
- 3 point linkage (optional extra)
- Greaseable bearings
- Water ballasted

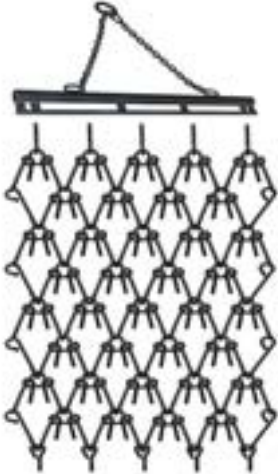

Model	4ft	5ft	6ft	8ft

Full Weight	400kg	490kg	633kg	782kg
Pin Hitch	Standard	Standard	Standard	Standard
Ball Hitch	Optional Extra	Optional Extra	Optional Extra	Optional Extra

The Oxdale farmland roller is water ballasted, which makes it ideal for large areas. The Oxdale farmland roller is fitted with an agricultural towing eye and can only be towed behind any agricultural machine.

- Water ballasted
- Scraper on the back of the roller
- Agricultural towing eye
- Optional 3-point linkage available, for easy transportation
- All roller drums are pressure tested
- 28" drum diameter

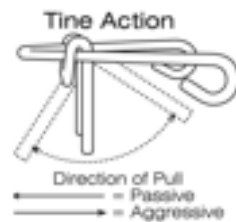

Model	8ft
Drum Diameter	28"
Wall Thickness	10mm
Empty Weight kg	710kg
Full Weight	1678kg
Agricultural Towing Eye	Standard

Our range of trailed and mounted chain harrows are designed to cover all applications from farms, small holding, equestrian venues and sports fields.

Harrowing removes the dead thatch, lifts vegetation up and levels any mole hills. It allows air movement and root aeration which helps the soil to breathe and improves water infiltration. It reduces disease by exposing fungi and bacteria to sunlight which is essential for the health of the pasture.

- 3-way matt on all 4ft, 6ft & 8ft
- Mounted or trailed
- Available in 4ft, 6ft, 8ft and 12ft
- Cat 1 or 2 linkage
- 12mm tine thickness

The Oxdale folding 12ft weeder has revolutionised grass harrowing in recent years. Larger working widths, more adjustment and aggressive spring tines mean that a better finish can be achieved faster and at a lower cost.

- 8mm tines are strong and long lasting
- Removes moss, dead grass and other weeds
- Tines cover every inch
- Folding Weeder Tine, to get through tight gateways and road transport
- Can be fitted to cat 1 / 2 linkages
- When it is folded the weeder is 4ft or 1.2m
- 4 Rows of tines
- 72 Tines
- 30hp +

The Oxdale fixed weeder has revolutionised grass harrowing in recent years. The weeder is available in multiple sizes perfect for small and compact tractors. The Oxdale weeder has aggressive spring tines meaning that a better finish can be achieved faster and at a lower cost.

- 4ft, 6ft, 8ft Fixed weeder
- Fitted with 8mm tines
- The machines are designed for strength without the need for high horsepower
- 3 rows of tines
- 4ft, 21 tines min 10hp
- 6ft, 31 tines min 15hp
- 8ft, 41 tines min 20hp
- Weeder can be used with the Oxdale seeder. Seeder is a optional extra
- Cat 1 linkage

Oxdale post hole borers are built to stand the test of time. The gearbox is cast iron and made to last.

- Suitable for tractors up to 60hp
- Can be fitted with our 4, 6, 9 or 12 inch diameter augers
- Bores holes up to 3 foot deep
- Works at a maximum of 540 PTO rpm
- Installed with a shear bolt to prevent damage to the machine
- Comes with a PTO shaft

Augers available separately.

The Oxdale Post knocker is suitable for use with all tractors. The post knocker has 60kg (max) weight block which can be reduced by removing leaves. A bolt-on, side mount bracket is also available should you wish to use the post knocker with a loader or digger.

- 60kg weight block
- Levelling adjuster
- Post holding plate
- Single acting ram
- Only requires 1 hydraulic spool connection
- Takes post up to 185cm (6ft)
- CAT 1 or 2 linkage

An essential tool for levelling ground. The Oxdale compact grader is ideal for use on hardcore tracks, spreading soil and rubble.

- 6mm thick sides
- Complete box no cut outs for material to escape from
- Front and rear reversible wear plates
- Adjustable ripper leg height
- Available in 4ft, 5ft and 6ft

Model	4ft	5ft	6ft
Working Width	4ft / 122cm	5ft / 152cm	6ft / 183cm
Ripper Legs	4	5	6
Wall Thickness	6mm	6mm	6mm
Weight	120kg	150kg	180kg
Linkage	1	1	1 & 2

Medium Duty Grader

The medium duty grader was developed for users with medium HP tractors. The medium duty grader will stand higher than the standard with 10mm thick steel sides. The back of the machine is made from one piece of sheet metal with added strengthening.

- Same head stock as the heavy duty grader
- Adjustable and removable legs
- Same legs as the heavy duty grader
- Reversible tines
- Reversible back blade
- No side cut outs where material can escape
- Cat 2 linkage
- Available in 6 and 8 foot

Model	6ft Medium Duty	8ft Medium Duty
Working Width	6ft / 183cm	8ft / 244cm
Ripper Legs	0	0
Cat Linkage	1 & 2	1 & 2
Wall thickness	10mm	10mm
Weight	450kg	550kg

The Oxdale heavy duty grader is ideal for use on farm tracks and drives. Durable tines easily break up the ground surface. Debris is dragged in the box to where the ground is lower where it is then deposited. Rear blades level and grade the ground surface. Available in 6ft, 8ft and 10ft models.

- Reversible rear blade
- Heavy duty ripper legs
- Adjustable leg height
- Replaceable and reversible tines
- Reversible side plates

Model	6ft Heavy Duty	8ft Heavy Duty	10ft Heavy Duty
Working Width	6ft / 183cm	8ft / 244cm	10ft / 305cm
Ripper Legs	5	7	9
Cut Linkage	3	3	3
Wall Thickness	15mm	15mm	15mm
Weight	600kg	800kg	1150kg

The Oxdale Slitter relieves compaction and promotes a healthier root system. It can reduce the need to purchase expensive artificial fertiliser. Alongside this, the Slitter improves growth and quality of grass. It improves drainage whilst simultaneously maximising fertiliser input and eliminating slurry run off.

- Compact sizes available 4ft, 5ft and 6ft
- Single rota
- Multi position bearings
- Water ballasted

Model	4ft Compact	5ft Compact	6ft Compact	8ft Heavy Duty	10ft Heavy duty

Cat Link	1	1	1	2	2
Weight kg	190kg	238kg	285kg	820kg	180kg
Ballasted Weight kg	410kg	515kg	615kg	1690kg	2112kg

Spring Tines are a necessity for operators in farming, smallholding, landscape development or estate management. Spring Tine Cultivators are a productive tractor attachment, they are available in a range of widths 4-foot, 6 foot and 8 foot.

- Suitable for tractors as low as 10 HP
- Available in widths of 4, 6 and 8 foot
- Easy to adjust, move and remove coulters, this enables the cultivator to be front or rear mounted
- Any number or configuration of coulters available for individual requirements
- Crumbler available as a optional extra

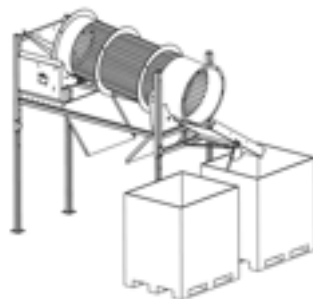

The Oxdale ripper and pipe layer is perfect for laying pipes or cabling around paddocks or fields, for pipes up to 4.5cm. The glides smoothly through a variety of ground types. Ripper adjustable height settings 18-24 inches.

- Recommended for compact tractors with 15 – 40 hp
- Our ripper and pipe layers are ideal for use around smallholdings laying water pipe or armoured cable, the attachment benefits from being both quick and easy to use
- Usual operating depth is 18 inches this depends on soil type and tractor size. Measurement from lower linkage to ripper foot 24 inches
- 3 Point Linkage

Log Cleaner, Hopper & Deflecting plate

OXDALE
PRODUCTS

The Oxdale Log Hopper & Trommel is designed as an add-on to a bulk log processing system. Cleaning the wood is the last step before packaging for bulk retail sale. The Oxdale Trommel will efficiently remove dirt, gravel, wood chips & splinters. For wood yards or log processing plants. The wood is cleaner, more saleable, and results in more accurate weight measurements.

- Hydraulic or electric driven
- Flow restricting baffle
- Speed control
- Galvanised trommel
- Modular system with easy add ons
- Auto log Feed

The Oxdale deflection plate is perfect for filling boxes, IBC's or bags after the logs have been cleaned

New for 2024, The three-point linkage mounted combination turf groomer is a multi-tasking unit to groom pitches prior to or after the match is finished. It is also an ideal unit for general pitch grooming/maintenance.

The star-shaped slitter bar pierces the surface to increase drainage. The brush and rake bars tickle over the surface to enhance the quality and appearance of the area. The rear roller firms up the surface and gives leaves a neat, striped finish.

All three tools can be adjusted by individual screw jacks for depth and pressure.

- Weight can be added by filling the roller drum up
- Greaseable bearings
- Powder coated finish for durability & longevity
- Different sizes available
- Three point linkage, Cat 1
- Slitter disks 100mm apart

With the advanced burner system, the Airrex diesel heater has a patented oil burner with an electric fuel pump that circulates the combustion gases through pipelines with ceramic coating and creates heat as infrared radiation. The triple combustion process ensures complete and clean combustion. Normal ventilation is sufficient. An effective silencing system inside the exhaust pipe compresses and expands the exhaust gases which makes Airrex very quiet – only 48 db.

- Wi-Fi or 4G connection
- Stylish dark graphite grey colour
- No smell, no fan, no dust
- No need for an exhaust pipe
- Wheels installed for easy manoeuvrability
- 3 Year warranty
- Touch control simple soft-touch control panel with led display and remote control
- Fuel: biodiesel, diesel, or red diesel
- Mobile control included

Pallet Fork Mounted Brushes

Towbars

OXDALE
PRODUCTS

- Fork arm mounted brush enables easy sweeping over large areas
- Durable and long lasting bristles made from polypropylene plastic
- Retains bulk volumes of solid or liquid material
- Standard or Heavy Duty available
- 4ft, 5ft, 6ft and 8ft sizes available

Towbars

The Three Point Linkage Tow Bar is ideal for moving trailers and caravans behind the tractor. It is available in CAT1 or CAT2 linkage and can be fitted with either a ball or pin hitch. For offroad use only.

- Ideal for moving trailers and caravans around behind the tractor with ease
- Available in cat 1 or 2 linkage
- Available with either a ball or a pin hitch adaption
